

During the volunteer placement, the potential student should:

1. Be exposed to a health care field setting (eg. long-term care or mental health)
2. Acknowledge the various roles within a health care setting.
3. Develop beginning communication skills.
4. Provide a positive experience for the resident by assisting with recreational and social activities.
5. Display enthusiasm and a positive attitude in the health care setting.
6. Display ability and willingness to work as team.
